

MicroTuff Universal

Knitted Microfibre cloth with abrasive strips

Knitted microfibre cloth for particularly good dirt removal
MicroTuff Universal is a knitted microfiber cloth with abrasive strips for easier removal of adhering dirt. It removes fingerprints and greasy dirt without the use of chemicals and is suitable for most applications and surfaces. It is characterised by good dirt absorption and a voluminous handle.

MicroTuff Universal is available in four colours, making it easy to distinguish between wipes and customise the wipes to suit the hygiene system. Basis weight: 270 g/m²

Scope of application

MicroTuff Universal can be used as an all-round microfiber cloth on almost all surfaces in building cleaning, healthcare and HoReCa applications. It can be used for dry, damp and wet cleaning and is particularly suitable for bucket method and spray cleaning.

Your benefits at one glance:

-  Knitted microfibre cloth with excellent price performance ratio
-  Ideal for efficient cleaning of even and structured surfaces
-  Washable up to 95°C
